

Ayecha: Where are you?

HINENI: Here I am, ready to:

Care for others:

I would like to work with fellow congregants to explore opportunities for our Temple community to care more deeply for each other. Together we will expand and create ways to provide support, assistance and strength to individuals and families during times of simcha, loss, economic challenges, job transitions, sickness and other life changing moments. Commitment required: Monthly meetings to start.

Explore my relationship with God:

I would like to work with fellow congregants to explore my own spirituality and help make Temple Or Rishon a place where we seek and strengthen our relationship with God. Together we will work to make TOR a place of spiritual growth and transformation as we explore matters of God and spirit and their relationship with the religious life of our Temple community. Commitment required: Monthly meetings to start.

Stand with Israel:

I would like to work with fellow congregants to strengthen TOR's relationship with the land and people of Israel. Together we will create opportunities for advocacy, education and relationship building as we work to deepen our love for the Jewish state. Commitment required: Monthly meetings to start.

Spend a Shabbat with people like me:

I would like to work with others to create a daylong (9am-9pm) Shabbat experience filled with learning, laughter, praying and playing! This year we will focus on creating two such events . . . A Women's Shabbaton, and a Family Shabbaton (for families with children in elementary school). Commitment required: Join the committee that plans and produces each of these events, and/or just show up for the Shabbaton.

Reach out to the larger Community:

TOR's Mitzvah committee has put forth incredible energy to care for the hungry and homeless in our community. I would like to work with them to add to these efforts, as well as contribute new ideas that will extend TOR's reach in the larger community. Commitment required: Join the planning committee and/or participate in a particular program.
